

Litter Scavenger Hunt

Each participant needs a bag and gloves. Pick an area to search, like a local park, a street in your neighborhood, a trail you hike. Unfortunately not everyone cleans up for themselves and just because it's not our trash, we should pick it up and dispose of it properly as responsible outdoor enthusiasts! Excess abuse and littering of our public areas can cause problems with wildlife, the enjoyment by others and sometimes the closure of the area. **Create a contest with a prize for the most stuff picked up!**
