## **BLIND MAN'S BLUFF – ANCIENT EUROPE**

This game dates back hundreds of years. One blindfolded player stands in the center while the others quietly move around them. Using only sound and instinct, the “blind man” must catch someone, but the others can tease, dodge, or shuffle away. Played outdoors, the game sharpens hearing and spatial awareness, creating moments of suspense and laughter.

**Players:** 4 or more players

**Items Needed:** Blindfold and an open outdoor space
